EDUCATION

Indian Institute of Information Technology, Kalyani

B.Tech in Electronics and Communication Engineering – CGPA: 7.40

Dec 2021 – May 2025

Kalyani, West Bengal, IN

Aditya Academy Secondary

Higher Secondary Education (CBSE) – Percentage: 87.8%

June 2020

Kolkata, IN

Aditya Academy Secondary

Secondary Education (CBSE) – Percentage: 91.4%

June 2018

Kolkata, IN

PROJECTS

PeerPool App | ReactJS, Blockchain Technologies, Express.js, Google Maps API

Sept 2024

- Developed a **decentralized** ride-sharing application enabling direct peer-to-peer ride agreements without intermediaries.
- Implemented **smart contracts** using **Solidity** on the **Ethereum** blockchain for secured transactions.
- Utilized **IPFS** for decentralized data storage, enhancing data privacy and control for users.
- Built a responsive frontend with **ReactJS** and Material UI, structured the backend using **Express.js** and used **Google Maps API** to provide real-time location tracking and route optimization.

Vitals Monitoring System | Python, ISAC, Signal Processing, QPSK

June 2024

- Engineered an **Integrated Sensing and Communication**-based prototype leveraging **LFM** radar for continuous non-contact monitoring of respiration and heartbeat.
- Integrated **OFDM** with **QPSK** modulation for efficient data communication.
- Applied **FFT** and filtering techniques for accurate frequency-domain analysis and extraction of vital sign features.
- Designed a modular **Python** architecture supporting SNR/BER analysis, anomaly detection, real-time visualization, and system performance logging.

Remote Desktop | Python, Flask, ReactJS, Socket Programming, Threading, HTML, CSS

March 2024

- Developed a cross-platform remote desktop application enabling real-time screen sharing, mouse/keyboard control, and file transfer over network connections.
- Utilized Python's **socket** and **threading** modules to manage concurrent client-server interactions, ensuring responsive performance.
- Built the user interface using **PyQt** and **Tkinter**, while employing **Flask** with **HTML/CSS** to provide a web dashboard for session control and monitoring.
- React** frontend to render real-time screen updates and capture user inputs (mouse and keyboard) efficiently

Portfolio Website | ReactJS, HTML, CSS, JavaScript

June 2023

- Built and deployed a **responsive** portfolio website using **React** to showcase skills and projects.
- Focused on clean **UI/UX**, and mobile-friendly design with animations and interactivity using **vanilla JavaScript**.
- Deployed via **GitHub Pages** for high availability and easy access.

TECHNICAL SKILLS

Languages: C/C++, Python, SQL, HTML/CSS, JavaScript

Frameworks: ReactJS, NodeJS, Flask, Tailwind CSS, Bootstrap, Mongo DB

Developer Tools: VS Code, MySQL, Git, Github

Creative: Adobe Premiere Pro, Adobe Photoshop, Apple Logic Pro

LEADERSHIP / EXTRACURRICULAR

IEEE Student Branch, IIIT Kalyani

Joint Secretary (Founding Member)

March 2024 – March 2025

Symphony, Music Club of IIIT Kalyani

Member

Dec 2021
